To Recapture the Asian Title

— MORIYASU Hajime

Japan will strive to take down the title and bring back the trophy to the nation, which is something we could not do in our last appearance. In order to win the Asian title for the fifth time, we need to play through the seven matches and I'm aiming to develop the SAMURAI BLUE each game we play and win the title at the same time.

I had a very difficult time selecting the squad, especially with many injured players, but I ultimately made the decision by looking at who are in their top conditions and this is the best possible selection at this moment. The team have some new players after the FIFA World Cup™ in Russia, and I want these younger players to have a strong intention that they are the ones who are constructing the new Japan National Team and strive to be champions.

If we can take down the Asian Cup title with this squad, it will give us great confidence, which can guide us to a new level. Also, with these selected players performing well at the tournament, it shall inspire the players who were not selected into this squad and help heighten the overall level of the Japanese football community.

We have played five matches since September for this tournament and I've consisted the best squad based on the players who have played there. It is expected that our opponents will

be fully prepared to face Japan and I'm sure they have analyzed our matches as well as our players. We must enter the match with the intention to perform better than we have done so far, or else it will be a very difficult tournament for us. It is important that we are fully committed in that regards. I know the games will be tough.

In November, the players did manage to perform well against the Kyrgyz Republic, where our opponents played deep in their territory. Our team showed great intensity and kept trying to strive for higher levels in that match. It was a performance that will help us ahead of the Asian Cup.

I have told the players that we will be seeking for results. I want them to think and act in ways that will help the team earn good results, either when they are in the match, during training, and even while off the pitch. We will train so that the players can read the flow of the game and make adequate adjustments during the match. We must heighten our conditions both as a team and as individuals. If we can construct a stronger team, we can compete at a higher level, regardless of either it's in Asia or at the world stage.

We want to perform well so that after each match we can make our fans and people smile.
